↳ daughter-in-law:- Wife of son only.

↳ Niece (female) & Nephew (male):- Children of Siblings & Cousins.

↳ Grand children:- Children of children.

1st Model Questions:-

Ex-1:- After seeing Venkat, Kalavathi recalled that "he is the only son of sister of my paternal grand father's only son". How he is related to my mother?

Ans:- Always start doing solution from reference point. Here reference point is Kalavathi i.e., we should starts from 'my' in the relation mapping.

↳ my (kalavathi) paternal grand father's only son.

means → kalavathi's father.

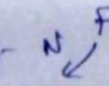

↳ only son of sister of kalavathi's father.

means → son of kalavathi's aunt (Paternal Aunt)

means. Venkat is female cousin to kalavathi.

then Venkat related as nephew to kalavathi's mother.

Ex-2:- A is B's father's nephew, C is A's cousin but not the sibling of B. Then how B & C are related?

Ans:- 

A & B are in same generation but not siblings & in-laws then obviously cousins.

A — B (Cousins), A —— C (Cousins) But B —— C (× Siblings)

∴ obviously B & C are cousins only.

B Cousins C

Ex:-3:- On a certain planet relations are like when.

A+B ⟶ A is father of B

A−B ⟶ " " Mother " "

A÷B ⟶ A is son of B

A×B ⟶ " daughter of B

A$B ⟶ A is sister of B

A#B ⟶ A is brother of B

A * B ⟶ A is wife of B.

A@B ⟶ A is husband of B, then.

(i) Which of the following relation suits to the relation diagram. 'P+Q×R$S#t' ?

(a) P is brother of R (b) S is brother of P (c) P&R are couple (d) S is sister of t (e) None.

↳ In general to solve these kind of problems we use some symbol for basic relations in solutions. they are. '−' → couples, 's' → siblings, '↑' previous generation, '↓' → next generation., m → male, f → female

$P^{(m)} - R^{(f)}, S^{(m)}, t$.

① ← ↑ option (c) P&R are couple.

Q

(ii) which of the following expression suits to the relation 'S is brother-in-law of P' ?

(a) P+Q+R+S (b) P−Q−R−S (c) P+Q×R$S#t.

(d) None of these.

(18)

Ans:- (a) P+Q+R+S

here all people are male except S (we dont know) & there is no relation of in-law's here.

(b) P-Q-R-S [here also same no relation of in-law's]

(c) refer diagram (1) in 177.

'S' is brother-in-law of 'P'

Answer option (c).

Ex 4:- [B.Q:- (1 to 4)] :- Paragraph based questions:-

Directions (1 to 4):- There are 6 persons $M_1, M_2 \ldots M_6$.

M_3 is the sister of M_6 & both are children of M_1

M_2 is the brother of M5's husband.

M_4 is the father of M_1 & grand father of M_6.

There are 2 fathers, one mother & 3 brothers in the family.

1) who is M's husband?

(a) M_2 (b) M_4 (c) M_1 (d) M_3 (e) none

2) who is the mother from all 6 members?

(a) M_2 (b) M_3 (c) M_4 (d) M5 (e) none

3) who are the sons of M_4?

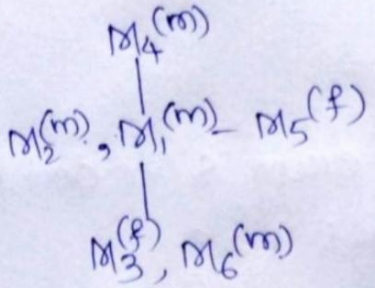

(a) M_1 & M_2 (b) M_1 & M_3 (c) M5 & M6 (d) M_1 & M6 (e) None.

4) How many male members are there?

(a) 4 (b) 2 (c) 1 (d) 4 (e) None

5) ~~A is brother of B & C, D is C's brother~~

Ans:- According to given relations & symbols we have to draw hierarchy diagram.

M4(m)
M2(m), M1(m) — M5(f)
M3(f), M6(m)
