(210) (ii) Closed shape Arrangement:- Mainly we have to know about circular. In closed circular arrangement when total members are 'odd' then exactly opposite Ps not possible. If total members are even then exactly opposite Ps possible.

↳ Here also we must know place & position of a person in all the ways.

↳ When odd members (assume 7 members) are playing cards game means immediately assume the diagram like

↳ When even members (assume 8 members) are playing cards game then assume figure Q as such a way that exactly opposite Ps possible. like,

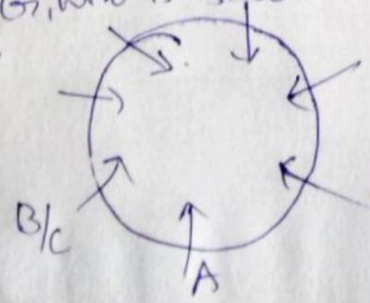

Ex:-1:- B.Q [11-15]:- Directions: (i) A, B, C, D, E, F & G are playing cards game around a circular table.

(ii) 'D' P is not neighbour of C or E.

(iii) 'A' P is neighbour of B & C.

(iv) G, who P is second to the right of D, is the neighbour of E & F.

Ans:

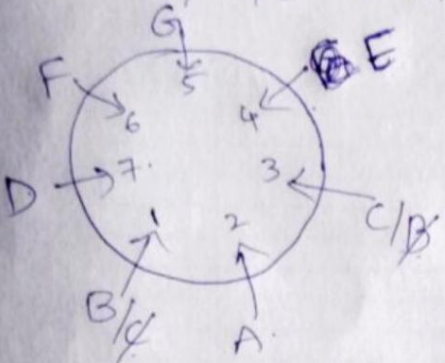

First always start with exact Info. i.e., (iii) point. In 3rd point A P is Q in b/w B & C means b/w either B&C / C&B.

(211)

↳ Next we should consider next linked points respectively.

D ≠ C/E & G is 2nd left to D & in b/w E & F.

D ≠ 3rd, 4th, 5th.

Because observing 'D' should start from 7, 6 ---, because this direction only gives possibility of giving 'G' position (D's left direction)

↳ 'D' can't be @ 6th because if D → 6th, G → 4th but @ this 'G' is not b/w E & F.

↳ 'D' is @ 7th only, if D → 7th, G → 5th & 1st 'B' only because 'D' ≠ C & 6th → F, because D ≠ E.

11) Which of the following is correct?

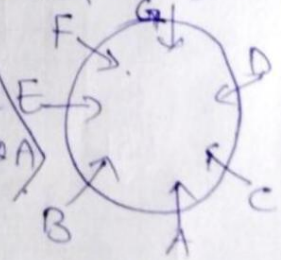

(A) B is b/w A & D (B) D is b/w F & G (C) 'E' is to the immediate right of G (D) F is to the immediate left of G

12) Which of the following has the pair with the 2nd person sitting to the immediate right of the 1st person?

(A) BD (B) GF (C) EC (D) AE

13) Which of the following will be D's position after E & D interchange their places?

(A) Neighbour of G & C (B) To the immediate left of C (C) To the immediate right of F (D) Neighbour of C & A

14) What is the position of C?

(A) 2nd to left of B (B) 3rd to the right of F (C) To the immediate left of A (D) To the immediate right of E (E) None

15) Which of the following has the 2nd person sitting b/w the first person & 3rd person?

(A) DAB (B) GCE (C) BCA (D) GFD (E) None
