'C' Programming

UNIX - CUI / GUI

→ GCC on Linux

→ Majority of features accessible by commands

C Programming

→ TC on Windows

→ Codeblocks

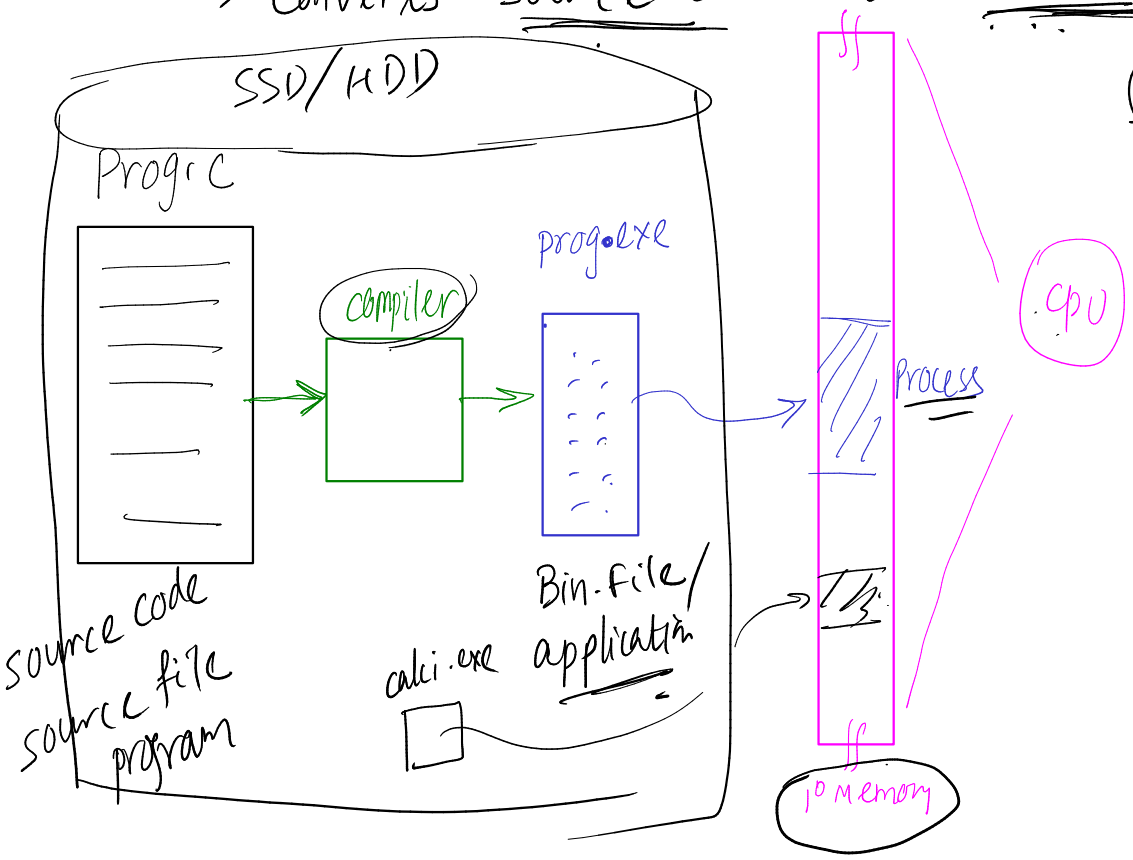

→ Visual studio

Compiler

→ A software/Dev. tool

→ Converts Source code to Bin code

Prog vs App vs process

TC | Keil-C | Code Block

IDE (Integrated Development Environment)

PC

- Editor
- Translator
- Assembler
- linker
- preprocessor
- Debugger
- Simulator

etc...

www.onlinegdb.com

compiler vs translator

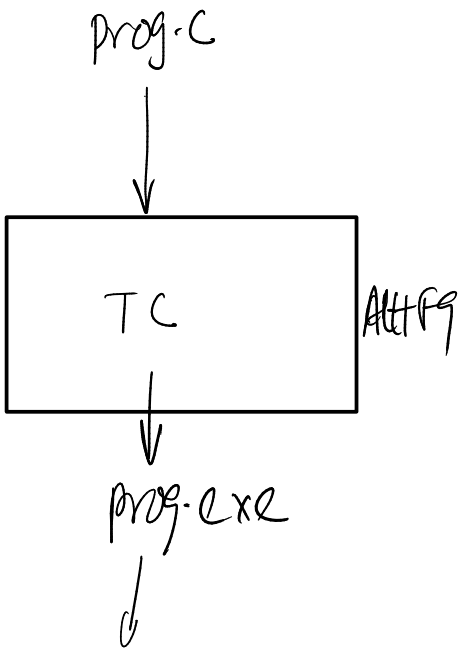

python script, shell script, perl script

Interpreter

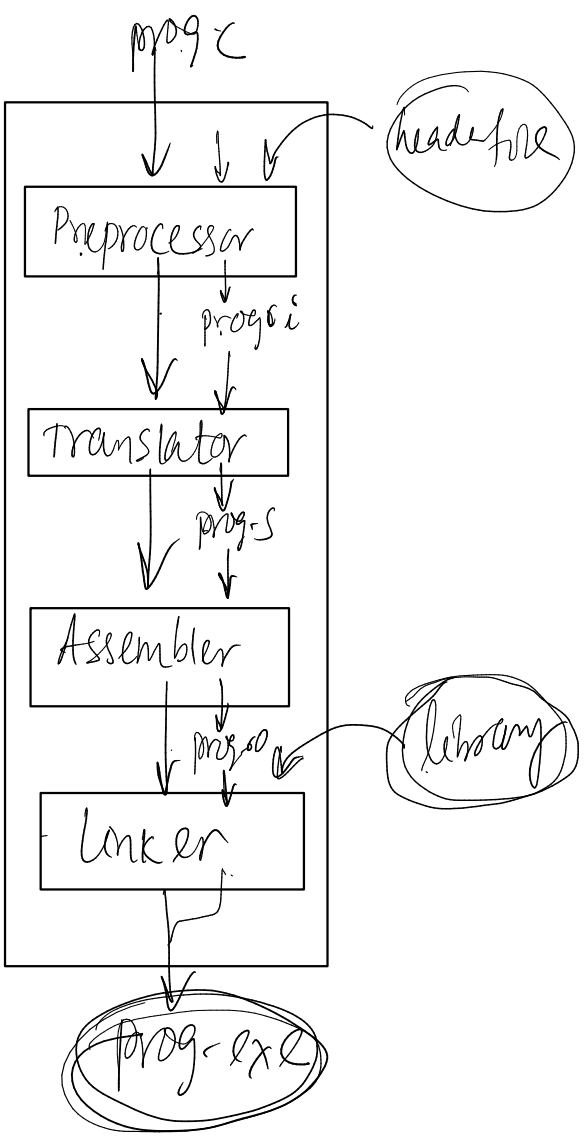

VM

GCC

LINUX

prog.c
TC
Alt+F9
prog.exe

gcc

prog.c
header file
Preprocessor
prog.i
Translator
prog.s
