→ msg Queues :-

Q Allocate a memory of 10 bytes dynamically. what will happen if 100th byte accessed.

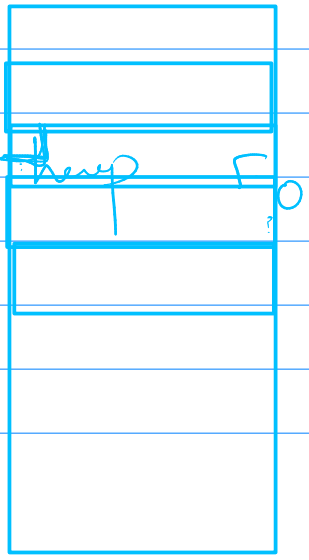

Ans:- Undefined

Segmentation fault

Allow

<4KB → text (1KB), data (1KB), heap (1KB), stack (1KB) → process

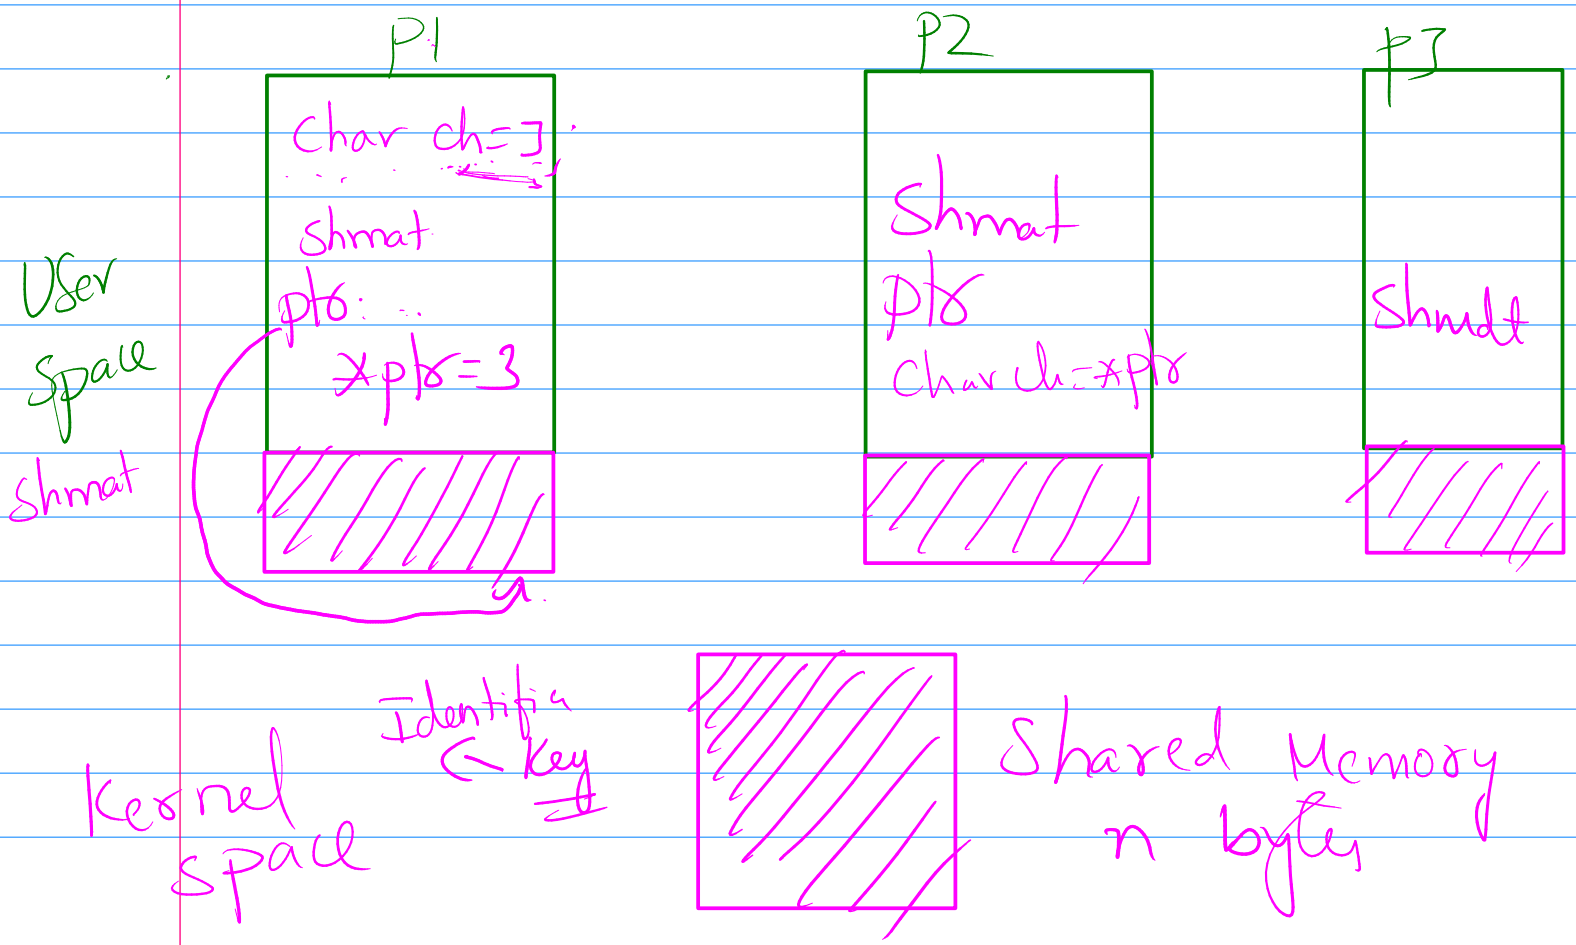

Q How free() knows how many bytes to free?

@ ./a.out mtype msg

Shared Memory :-

1. To speedup the Commⁿ
2. multiple procesn Can read the Same data.

Created the shared Memory :-
